Description

The WarmlyYours SCM-DUAL snow and ice melting timer control is a simple, flexible, and affordable option for snow melting, slab heating, and roof and gutter deicing systems. Multiple operational voltages are possible for directly powering 120V, 240V, and 277V heaters (power supplied to control must match voltage of heaters). This unit features a 12-hour, adjustable timer and a NEMA 1, indoor enclosure with hinged cover. This unit includes a terminal block for easy wiring. When operated at 120V, the SCM-DUAL can be used with WarmlyYours relay panels to control larger jobs.

Important Notice for Québec Consumers:

WarmlyYours does not provide repair services for this product. The only replacement parts available are splice kits for snow melting cables and mats; no spare parts are available for snow melting controls. If your snow melting system (cables, mats, or controls) fails within the warranty period, we will replace the entire unit according to our warranty policy. Our technical support team is available 24/7 by phone for installation and troubleshooting assistance. For full details, see our Return Policy. This notice is provided in accordance with Québec's Consumer Protection Act, section 39 (as amended in 2025).
